

The Chain scraper head **enz golden jet<sup>2</sup>** is an apparatus which has many uses and is simple in handling and maintenance. Several different pipe diameters can be cleaned with the same tool. Various deposits like calcarious layers and concrete residues are efficiently removed.

Some areas of application:

- As preliminary operation before renovation with liners, coatings or by injections.
- Removal of total rootings
- Removal of incrustations and deposits
- Removal of concrete rests in newly laid sewage pipelines before being inspected.
- Equipped with link chains, the tools are suitable for removing certain damaged liners.

**Arbets tryck: upp till 280 bar**

Art nummer	Anslutnings gänga	Rekomenderad rör diameter	min. l/min at 100 bar
8558.2806	1/4"	40 – 100 mm	20 l

Mått: Ø 40/28 mm – Längd 81 mm  
 Munstycken: Rotation 3 x Ceramic M4 – drag 3 x Ceramic M4  
 Vikt: 0.32 kg

**Reserv och sliddelar:**
